

Letter of references

„Przewozy Regionalne” sp. z o. o. was found after dividing the Polish National Railways national rail operator into several companies to meet European Union requirements.

Przewozy Regionalne sp. z o. o. is a rail operator responsible for local and interregional passenger transportation.

Przewozy Regionalne sp. z o. o. has been cooperating with DARPOL Bydgoszcz Company in scope of repair and supply of new spare parts to passenger rolling stock.

DARPOL Company supplies many varied elements to passenger coaches and electric multiple units (for example handles, door handles, locks, pull rods, bolts, cover blades, hangers, window handles and catches, handrails, couplers, electrovalves, coils, water time release, Akerman's doors – door of emergency break, toilet water release system, cables, parts of toilet's valve, springs, sun covers, driver's map boards etc. and spare parts to speed measuring system of Swiss Company Hasler).

Despite the big amount of supplied parts and works, we haven't stated any defects, that could be a base of our claims.

According to the above mentioned facts, we can recommend products of DARPOL Bydgoszcz Company to use during works and maintenance of passenger rolling stock.

PESA Bydgoszcz SA, being a successor of Rolling Stock Repairing Works in Bydgoszcz, recommends products of DARPOL Bydgoszcz.

Our company, which main activity is production, modernization and repair of rolling stock, among which are also rail-buses and locomotives has been cooperating with DARPOL Bydgoszcz for many years.

Apart from main specialization, which is production of door lock system, elements of interior to passenger cars and Electric Multiple Units, DARPOL Bydgoszcz produces and repairs spare parts to speed measuring system in locomotives (Swiss company HASLER type). The main parts of this system produced or repaired by DARPOL Bydgoszcz are parts of speedometers transmitter (commutators, brushes, brush-holders) and speedometer (recording unit assembly, diagram paper roller assembly, escapement mechanism, coil wounds, interconnection cables, protection cap combinations, holder base combinations, speedometer wires.

All of the subassemblies have good quality and allow for proper speedometers indications.

Therefore, with all responsibility we recommend the products of DARPOL Bydgoszcz to every company exploiting locomotives and Electric Multiple Units with HASLER speed measuring system installed.

PESA Bydgoszcz SA, being a successor of Rolling Stock Repairing Works in Bydgoszcz, recommends products of DARPOL Bydgoszcz.

Our company, which main activity is production, modernization and repair of rolling stock – passenger cars, rail-busses and locomotives has been cooperating with DARPOL Bydgoszcz for many years.

DARPOL Bydgoszcz specializes in production of door lock system in passenger cars used in Poland, Ukraine, Lithuania, Russia, Latvia. The elements of door lock system provided by DARPOL Bydgoszcz (handles with electromagnetic blockades, locks, bolts, pull rods) reach very high expectations of Polish National Railways and other railway companies in Poland and from abroad, including “Ukrainian Railways”, “Russian Railways”, “Latvian Railway”. We are also very satisfied using DARPOL Bydgoszcz’s important subassemblies: water time relay, pulse amplifier, speed sensor etc.

We want to underline very positive and open attitude of DARPOL Bydgoszcz towards any inquiry and proposal of cooperation, that makes our production and repair process easier.

Therefore, with all responsibility we recommend the products of DARPOL Bydgoszcz to every company producing, repairing or using its own rolling stock, especially passenger cars.

RECOMMENDATION

"Koleje Mazowieckie – KM" sp. z o.o. being a regional rail passenger operator owned by Mazovian Voivodship of Poland has been using its own rolling stock including especially electric multiple units. For long years "DARPOL" Company has been supplying elements of interior and other subassemblies to it, among which elements to "Hasler" speed measuring system.

Realization of our orders was on time and supplied elements were prepared well and solid, which certified its high quality.

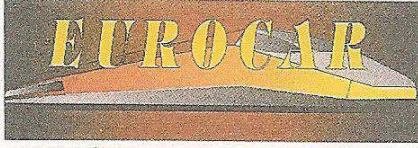

Basing on our previous cooperation we want to inform that "DARPOL" Bydgoszcz company is very reliable and trustworthy partner.

Polish Volleyball Federation recommends

BUZZERS

PRODUCED BY

DARPOL BYDGOSZCZ COMPANY

The time of dynamic development of volleyball in Poland presented the necessity for suitable sports equipment and field appliances used during numerous tournaments.

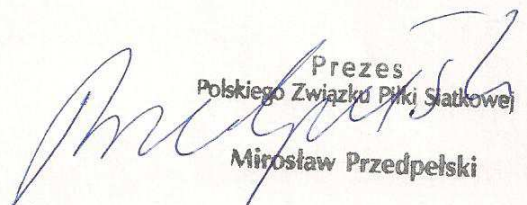

Darpol Company developed signalling devices used during the matches in order to signal intervals in a game and change of players. Signalling devices have been used in numerous major events organized by Polish Volleyball Federation, such as European Championship, World League (including the finals), CEV Champion League tournaments, and Polish Volleyball League tournaments on all levels. At all times, devices never failed our expectations.

In recent years, volleyball tournaments in Poland were attended by massive numbers of enthusiastic sports fans therefore facilitation of referee's work was a necessity, and at the same time neither the scenery of tournaments nor the television broadcast could not be disrupted.

Darpol company developed additional element placed on the net poll, opposite the 2nd referee, which emits pulsating light signal at the same time the coach and referee secretary device is switched on. The devices used during the game are wireless coordinated in order to avoid disruptions in tournaments.

Also, Darpol company developed more economic set of signaling devices, without the element placed on the net poll, which is used during lower levels tournaments.

In reference to above said, Polish Volleyball Federation approves and recommends signalling devices produced by Darpol Company.

Frankfurt, 06.02.2014

Recommendation letter DARPOL buzzer system

Dear Sir or Madam,

The German Volleyball Federation highly recommends DARPOL buzzers as a product for sport events. Since four years DARPOL buzzers is a regular feature in all German Volleyball events like the FIVB World League, European League and friendlies. During this time, it still works without any problems and to the utmost satisfaction.

Based on this performance, we have no hesitations in recommending DARPOL buzzers for other sport events or Volleyball Federations. If there are any questions or suggestions about this please contact me.

Yours Sincerely
GERMAN VOLLEYBALL FEDERATION

Recommendation letter

Finnish Volleyball Association began in the year 2013 co-operation with DARPOL by ordering DARPOL volleyball buzzers to be used in the FIVB World League and CEV Qualification Tournaments.

We will also recommend for the clubs in the highest national league - *Mestaruusliiga* - to use DARPOR products, especially buzzers and substitution paddles.

We are very satisfied with the professional way of DARPOL to work together with us and also with the quality of their products.

Recommendation letter

Danish Volleyball Federation has for several years, the volleyball buzzers and substitution paddles from DARPOL.

The clubs in the highest national league uses with great satisfaction substitution paddles from Darpol.

In connection with the National Matches, we have used both volleyball buzzers and substitution paddles from DARPOL to the delight of all involved.

In connection with the recently held 2013 CEV VELUX Volleyball European Championship Men Final Round was volleyball buzzers and substitution paddles from DARPOL also used with great success.

Schweriner SC recommends

Buzzers

Produced by

DARPOL Bydgoszcz Company

Schweriner SC, Germany's Record Champion in Women's Volleyball, is using the Buzzer system by DARPOL Bydgoszcz Company since 2013. After this period of time we have to consider, that our team, the coaches, referees and opponent teams are enthused because of the easy handling, the reliability and the practical application.

First we used the Buzzers for last year's European Championship in Germany. Afterwards it was also in use for the Bundesliga, German Cup and CEV Champions League matches by the team of Schweriner SC. There were absolutely no problems with the product and it was a big help for all participants in our noisy Arena. Also other Bundesliga teams, like VT Aurubis Hamburg, used the Buzzers by DARPOL Bydgoszcz and told us how satisfied they are. So we can highly recommend this system because of the good experiences we made.

Recommendation letter

Pro Athletics company since 1995 has been one of the strongest suppliers in the market of sport equipment in Russia and other CIS countries. The main specialization is the equipment for volleyball and athletics.

Our goal is to present to the market only the best brands for the professional sport disciplines.

One of them is Darpol, with whom our company has been cooperating in scope of volleyball equipment for many years - especially in the deliveries of high quality volleyball time-out buzzers and substitution paddles.

For the years the equipment by Darpol was sold and used with a big success by many Russian sport halls, sport schools and such prestigious clubs and clients like:

From Russian Super League :

1. VC "Lokomotiv", Belogorod
2. VC "Dinamo Kazan", Kazan
3. VC "Fakel", Noviy Urengoi
4. VC "Hara Morin", Uan-Ude
5. VC "Zareche", Odincovo

From Russian League A:

1. VC "Primore", Vladivostok
2. VC "Sahalin", Uzhno-Sahalinsk
3. VC "Enisey", Krasnoyarsk
4. VC "Obninsk", Obninsk
5. VC "Nadezhda", Serpuhov

From Kazakstan:

1. VC "Karaganda", Karaganda
 2. Kazakstan Volleyball Federation, Almaty
- etc.

We highly appreciate working with Darpol and with full responsibility we can recommend cooperation with Darpol and using its volleyball equipment.

Director Natalia Orlova.

DARPOL Bydgoszcz

Volleyball Substitutions paddles

I am a Head Coach with Men's Volleyball program at Ryerson University in Toronto, Canada. Since I'm working with OVA and CIS Conference, and using your product – volleyball substitutions paddles for almost a year, I thought I would send you a letter how happy I am with your product and a choice we made. The primary objective of doing this is to support your company and assist when I can in sharing referrals and new opportunities to help you to build your businesses.

I feel that your product is simple, well designed, but has a very clean and contemporary and modern look. It was made with great material and workmanship is superior. It's easy to use and very durable. We have been using the sets for a year, and they looked like brand new. There are a few other products available here like yours, which have been used by other universities, but they are not even close to a quality of your product. It was money well spent, and I would like express to you how happy I am with it. If you run across someone who is interested in buying your substitutions paddles, I would be happy to recommend your product to anyone to see this as a good fit for them.

Please feel free to share these with anyone you want.

Thanks again for your wonderful product and I look forward to speaking with you soon.

Warm Regards,

Mirek Porosa
